Profile

- Highly skilled and dedicated Fullstack Developer with 3 years of experience in building responsive, user-centric web applications. Proficient in Next.js, React, JavaScript, HTML, CSS, and a strong advocate of best practices in UI/UX design and SEO practices.

Experience

- **Azany | Frontend developer**
 - Translated complex figma designs into responsive Pixel perfect web pages using Next.js and React
 - Integrated RESTful APIs with tools like Postman, React Query, and Zustand for efficient data fetching and state management
 - Developed core features for a B2B e-commerce platform including:
 - Buyer flow: bulk product ordering, bargaining system and seamless check out
 - Seller flow: product listing, subscription plans, withdrawal, bank account verification, and shareable product links
 - Implemented secure payment systems and integrated various UI component libraries such as Rizz UI, Headless UI
 - Use recharts for dynamic data visualization and integrated libraries like react-phone-input and PDF editing tools
 - Focused on performance, user experience, and mobile responsiveness across all pages
- **Freelance | Front end developer**
 - Developed and deployed user-friendly web applications using React.js, increasing user engagement.
 - Integrated APIs, enhancing the website's functionality
 - Optimized website performance, reducing page loadtime, resulting in a better user experience.
- **Acme Software Labs | Front end developer intern**
 - Built projects using React, HTML, CSS and Bootstrap
 - Collaborated with a team using version control kits like git and GitHub
 - Learnt proper code documentation
